SUBJECT INDEX

A

Abscess, blastomycosis, surgical management of, indications for, 379
Acoustic neuroma
  clinicopathologic growth factors of, 546
  surgery for, cerebrospinal fluid leak after, 553
Adenoma, pituitary
  Cushing's disease in, gamma knife surgery for, 170
  pituitary apoplexy from, 158
    in child, 154
Adolescent, *See* Infants and children
Amaurosis, unilateral, as complication of giant cephalhematoma, 363
4-Aminopyridine, effect in acute spinal cord injury, 443
Amphotericin B, for blastomycosis, 379
Anastomosis, superficial temporal artery to superior cerebellar artery, via presigmoid retrolabyrinthine transtentorial approach, 360
Anencephaly, prevention of, use of folic acid in, 120
Aneurysm, *See also* Pseudoaneurysm
  cerebral, *See* Cerebral aneurysm
  giant, high-flow extracranial-intracranial arterial for, using radial artery graft, mean hemispheric blood flow in patients receiving, postsurgical observations on, 500
  kissing, of distal anterior cerebral arteries, 497
  middle cerebral artery, transsylvian and superior temporal gyrus approaches, 15
  ruptured, associated with arachnoid cyst, 353
Aneurysmal subarachnoid hemorrhage, 596-ed
Angiography, *See also* Magnetic resonance angiography
  extravasation of contrast material, in acute spontaneous subdural hematoma, 61
Angiolipoma, spinal cord compression from in Klippel–Trenaunay–Weber syndrome, 257
Angioma
  cavernous, intramedullary, of spinal cord, 448
  skin, associated with middle fossa arachnoid cyst, 31
Angioplasty, *See* Percutaneous transluminal angioplasty
Anterior cerebral artery
  distal, kissing aneurysms of, demonstrated by magnetic resonance angiography, 497
  ischemia, in childhood moyamoya disease, cerebral revascularization using gracilis muscle transplantation for, 191
Anticonvulsant medication, role in seizure prevention after treatment of chronic subdural hematoma, 579
Antisiphon device, shunt, 314
Apoplexy, pituitary, *See* Pituitary apoplexy
Arachnoid cyst
  middle fossa, intracranial cavernous malformations and skin angiomas associated with, 31
  ruptured aneurysm associated with, 353
Arachnoiditis, hydrocephalus secondary to, 324
Arterial occlusion, superior cerebellar artery, Sjogren's cerebritis complicated by, 48
Arterial origin of bleeding, cerebral angiography of, 61
Arteriography, spinal, of dural arteriovenous fistula, 35
Arteriovenous fistula
  perimedullary, Type II, treatment of, by intraoperative transvenous embolization, 491
  spinal dural, supplied by branches of internal iliac arteries, 35
Arteriovenous malformations, spinal radiculomeningeal, functional prognosis after treatment of, 453
Arteritis
  necrotizing, localized, of central nervous system, 510
  Sjogren's, complicated by subarachnoid hemorrhage and bilateral superior cerebellar artery occlusion, 48
Astrocytoma, *See also* Xanthoastrocytoma
  biology, impact on therapy, 256
  classification system for, 284
  low-grade
    arising from pineal gland, 70
    spinal, with exophytic and intracranial extension, 261
Atherosclerosis, posterior cerebral artery, percutaneous transluminal angioplasty for, 42
Attitudes, 414-ed
